

**U.S. ARMY CORPS OF ENGINEERS  
REGULATORY PROGRAM  
APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)  
NAVIGABLE WATERS PROTECTION RULE**

**I. ADMINISTRATIVE INFORMATION**

Completion Date of Approved Jurisdictional Determination (AJD): [4/23/2021](#)  
 ORM Number: [2021-00445-JLK](#)  
 Associated JDs: [N/A](#)  
 Review Area Location<sup>1</sup>: State/Territory: [Wisconsin](#) City: [Hortonville](#) County/Parish/Borough: [Outagamie](#)  
 Center Coordinates of Review Area: Latitude [44.328584](#) Longitude [-88.657665](#)

**II. FINDINGS**

**A. Summary:** Check all that apply. At least one box from the following list **MUST** be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: [N/A or describe rationale](#).
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

**B. Rivers and Harbors Act of 1899 Section 10 (§ 10)<sup>2</sup>**

§ 10 Name	§ 10 Size	§ 10 Criteria	Rationale for § 10 Determination
<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>

**C. Clean Water Act Section 404**

Territorial Seas and Traditional Navigable Waters ((a)(1) waters): <sup>3</sup>			
(a)(1) Name	(a)(1) Size	(a)(1) Criteria	Rationale for (a)(1) Determination
<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>

Tributaries ((a)(2) waters):			
(a)(2) Name	(a)(2) Size	(a)(2) Criteria	Rationale for (a)(2) Determination
<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>

Lakes and ponds, and impoundments of jurisdictional waters ((a)(3) waters):			
(a)(3) Name	(a)(3) Size	(a)(3) Criteria	Rationale for (a)(3) Determination
<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>

Adjacent wetlands ((a)(4) waters):			
(a)(4) Name	(a)(4) Size	(a)(4) Criteria	Rationale for (a)(4) Determination
<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>	<a href="#">N/A.</a>

<sup>1</sup> Map(s)/figure(s) are attached to the AJD provided to the requestor.

<sup>2</sup> If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

<sup>3</sup> A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

NAVIGABLE WATERS PROTECTION RULE**

**D. Excluded Waters or Features**

Excluded waters ((b)(1) – (b)(12)): <sup>4</sup>				
Exclusion Name	Exclusion Size		Exclusion <sup>5</sup>	Rationale for Exclusion Determination
Wetlands 1 and 2	0.33	acre(s)	(b)(1) Non-adjacent wetland.	Based on a review of the wetland delineation map, Wetlands 1 and 2 are surrounded by uplands in the central portion of a vacant field. Agricultural fields and a man-made storm water pond are located to the east, industrial development to the north and south, and a paved two-lane roadway to the west. The delineation map also shows the boundaries of Wetlands 1 and 2 are contained within the review area and additional wetlands outside of the review area to the north. Historical aerial photos provided in the request and via Google Earth (photos taken 05/2018, 04/2017, 04/2015, 10/2013, 05/2011, 06/2010, 06/2008, 06/2006, 05/1992) primarily taken during the wetter months of the year, illustrate mostly dry conditions within the area. The Wisconsin Surface Water Data Viewer indicates the nearest (a)(1)-(a)(3) water is an unnamed tributary of Black Otter Creek approximately 0.02 mile north of Wetland 2. A review of floodplain maps indicate there is no mapped floodplain for this tributary and a review of a topographic map provided in the wetland delineation to the north shows a gradual decrease in elevation towards the north/northwest. The presence of uplands around both wetlands, the change in elevation, the lack of a mapped floodplain within the review area, and aerial photography, all indicate these wetlands do not abut the tributary to the north, are not separated from this water by natural or man-made barriers, and do not receive flooding in a typical year from this water of the U.S.

**III. SUPPORTING INFORMATION**

**A. Select/enter all resources** that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

Information submitted by, or on behalf of, the applicant/consultant: [Cedar Corporation, Lot 1 CSM 5517 updated wetland information and 2020 Wetland Delineation Industrial Park Avenue Property, Village of Hortonville \(area immediately north of review area\).](#)

This information is sufficient for purposes of this AJD.

<sup>4</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>5</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
